From line 13 to 20:

~~This motion provides a non-exhaustive list of instances where we believe Shahrar has not lived up to the 'highest standard of behaviour' that is required from spokespeople in the Spokesperson Code of Conduct. This motion seeks to show that some of Shahrar's public comments do not 'uphold the policies of the GPEW'. We also do not believe that certain statements do not 'uphold the ethical principles and political values of the GPEW'. This motion focuses on two instances of this.~~This motion focuses on two instances of where we believe the values of the Young Greens and the policies of the GPEW are in conflict with Shahrar Ali's online statements. ## Reason

1. This amendment is for the purpose of reframe the motion around our core beliefs as Young Greens. This is rather than framing this around the Code of Conduct which is outside of our jurisdiction to decide upon.
2. The title has been edited with consider added to recognise that YG Conference is not the final arbiter on the termination of a spokesperson and accept that normal processes must be followed.
3. It also removes a section that makes an inference because that is unproven on workplace discrimination.
4. There are some textual amendments too.
