PR1 Orla MacMahon

Agenda item: E.1.5 Press Officer (x1)

Local Party:
Bristol Green Party

Which role are you applying for?:
Press Officer

Candidate Statement

Young people are looking for a credible option to represent the social and environmental issues that matter. As Press Officer, I would make it my priority to ensure the Young Greens consistently present ourselves as the mobilised and engaging home for Green politics. Appealing to left-wing youth and activists has been key to our successes, yet it is of equal importance to me that we work to reach the people who are distanced from Green politics, and capture their attention with our work and our values. We can achieve this through a proactive approach to media opportunities and a cohesive messaging strategy across all platforms, and I believe I have the dedication and experience to lead on this. I contributed to the Bristol Youth Strike for Climate movement as press officer, gaining experience and contacts in local and national media and working to showcase the strength of youth activism whilst ensuring our key messages remained clear. I am genuinely excited by the opportunity to work with the Executive Committee to raise the profile of Young Green voices and earn a wider audience for our work. Reach out to me on social media if you have any questions or want to talk more!
