Candidate Statement

I have been involved with the Green Party since the 2019 General Election, when I joined the Bristol campaign. I now serve as co-Chair of the Bristol Young Greens – a role I hope to be re-elected to – and on the managing committees of the Bristol Green Party. I even stood as a candidate in the recent elections, where Bristol achieved the largest Greencouncillor group ever. I have also been part of the effort to establish the South-West Young Greens and look forward to continuing this work in the future. At university, reading Geographical Sciences gave me an in-depth knowledge of the scale of the climate emergency and the essentiality of green policies, and I was responsible for managing events and five-figure budgets at a student society level. I believe this is all very relevant experience for the role of Young Greens Co-Chair.

If elected, my primary aim will be maintaining and creating more local youth activist groups by engaging with students and young people across the country – I know first-hand the impact of organised young Greens on a campaign. By supporting local Young Green societies, we can help young people everywhere make their voices count and their votes matter.
