Which role are you applying for?:
    International Officer

## Candidate Statement

I have loved being your international officer this last year and am asking to represent you again this year to build on the connections and momentum I have created.

I have focused on strengthening our relationship with the Federation of the Young European Greens and Global Young Greens in the following ways:

Local Party:
Oxford Green Party

- I have attended 2 General Assemblies for FYEG, representing our views there and strengthening connections with fellow European Young Greens

- I have facilitated the following MO to MO trainings: E.g. Albanian Young Greens and Serbian Young Greens

- Supported a mentor scheme for the East Africa Academy by providing mentors for the Kenyan Young Greens

- Organised events with Natalie Bennett and Molly Scott Cato on the topics of Hong Kong Human Rights and Sustainable Agriculture

- Provided support for candidates for Global Young Greens and FYEG EC

I would love to build on the connections I have made this year if you choose me as your next International Officer. My focus will be on:

- Creating an International Working group straight away to increase capacity to put on more events and have a wider range of opportunities

- Focus on build up to COP26 including conducting events with our Mother Party

- Increase joint events with other Young Greens across the world, including networking events and knowledge sharing events

- Learn from other country's organisations on diversity, campaigning and effective comms

- Increase access to global opportunities for our members: e.g. writing for Ecosprinter (FYEG's online magazine), internships etc
