B9 Support Intersex youth

Proposer: Joshua Farrell (Ipswich Green Party)
Agenda item: B Motions of Policy and Organisation

Summary

This motion calls for us to specifically mention the issues facing intersex youth when campaigning for the wider community.

Notes:

- Intersex people are people born with difference in genitalia, chromosomes, gonads, internal sex organs, hormone production, hormone response and/or secondary sex traits
- Intersex people face simmilar fear, bias that faces members of the LGBTIQA+ community
- Intersex youth are often undergo non-consentual surgeries which are in not medically necessary
- As these surgeries are preformed on intersex youth as infants this denys them bodily autonomy and leave them with reproductive issues, issues with sexual function and problems with emotional wellbieng
- We must campaign to remove stigma and medicalisation of intersex bodies, use intersex inclusive language, legislation reform that include intersex people and speak out against injustice

Believes:

- Intersex youth are an often overlooked group that face discrimination
- Laws that negativley affect trans and non-binary people also negativley affect intersex people
- Intersex people face simmilar struggles to the LGBTQA+ community and should be accepted as part of the community

Resolves:

- To advocate for intersex youth just as much as trans and non-binary people
