

**SPCRE1** Heloise Hunter

Agenda item: E.4. Structures and Procedures Committee

Which role are you applying for?:  
Structures and Procedures Committee

## Candidate Statement

It's essential that everyone in the Young Greens feels able to contribute, comment and get involved. Working on the Structures and Procedures Committee would be a great opportunity to help support a transparent and accessible constitution, and ensure members are comfortable raising issues. I'm keen to make sure everything runs smoothly, so the Young Greens can have the biggest impact possible.

Previously, I've been involved in a variety of projects with a background in organisation and democratic procedures. I served as Secretary and later Executive Officer of my Student Union's Global Justice Campaign, allowing me to promote environmental and social issues and reinforce constitutional pathways. Working on the general committee of Oxford Student Minds, a student mental health charity, also highlighted how crucial it is that all individuals feel comfortable contacting and discussing queries with the SPC, and that it remains an easy and open process.

I believe that we constantly need to re-evaluate whether our community is providing enough space and support to traditionally marginalised communities, and working on the SPC would allow me to ensure that they are being heard and their concerns highlighted. I'd also like the opportunity to assist elected members, and to make sure they are held accountable in following democratic procedures. This year, I have taken time out to work with an initiative promoting green economic growth before starting my Masters in Environmental Technology. This has cemented how firmly I believe we need to push for systemic environmental and social change by engaging with our political system. I'm fully committed to greening our society and I believe the Young Greens represent the best way forwards.

TR1 Rajiv Sinha

Agenda item: G.1. Treasurer

Which role are you applying for?:  
Treasurer

## Candidate Statement

The Green Party has the opportunity to direct the change needed to counter the global issues facing society globally and at home. There is clear demand for a liberal, progressive, effective approach to our politics and the Green Party has positioned itself to lead on this front.

The Young Greens has a huge part to play in the attempt to solve our current problems, being the political organisation with the greatest potential to bring together young people. We are dedicated to justice, equality, democracy, and sustainability, and to rebuilding society in a more resilient, equitable way.

I am Rajiv and I have worked for the Young Greens in many different ways. As the Electoral Returning Officer in 2019, I oversaw our elections, managing candidate nominations, speeches, and results. As co-chair of 2019's AGM, I helped to ensure the smooth running of that essential democratic feature of our party.

I also have experience working in various industries, including research, policy, and business. I am able to perform reliably under pressure and keep to strict time and logistical constraints. I am also highly organised and driven, and want to contribute to the progress of the Young Greens and broader Green Party.

For these reasons I believe I would be a good treasurer of the Young Greens. I am accustomed to organising money, highly attuned to politics, and dedicated to Green politics.

Thank you for hearing me out!
